**Subject : Sanction for Conducting Short Term Courses under Jeevan Shikshan Abhiyan on No Grant Basis. (2024-25)**

Sir/Madam,

With reference to your proposal for conducting Short Term courses indicated below under Jeevan Shikshan Abhiyan of this Department, this is to inform you that your proposal has been accepted and your College has been granted permission to conduct the course on the following conditions:

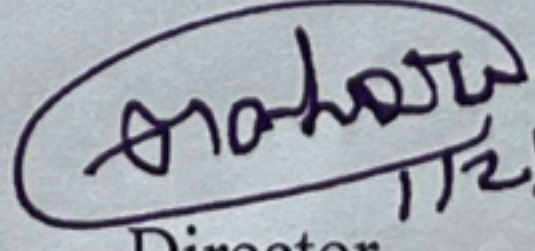

### Details of the Course

| Sr. No. | Name of the Course                                                                    | Name of Course Coordinator                                | Duration                         | Credit | No. of Candidates to be admitted | Fees to be Charged per Student | Fees to be Deposited With the Deptt. |
|---------|---------------------------------------------------------------------------------------|-----------------------------------------------------------|----------------------------------|--------|----------------------------------|--------------------------------|--------------------------------------|

**Rules & Regulations of this Department regarding these courses should be strictly followed.**

- This sanction is valid for this particular Batch only.**
- Fees for the course should be charged as per the norms prescribed.
- Expenditure on the course should be incurred as per norms.
- Course should be started within a Month from **the date of sanction.**
- Please communicate your acceptance within **a month and submit the Initial Report**
- Submit the List of Students admitted in **the excel format attached** herewith.
- Send **Time Table** of the Course along with **Name of the Faculties.**
- Geotagged Photographs clicked during theory and practical classes have to be submitted along with the final report. **Other than geotagged photographs will not be accepted.**
- Complete details and evidences (along with geotagged photographs) for theory & practical exam / assessment will have to be submitted. Guidelines for allotment of grades should be strictly followed.
- After Completion of the course the dates for assessment / exam should be informed to the Department **at least 10 days in advance.**

Your's faithfully,

  
1/2/2025  
Director

## Final Report of Certificate Course “Bench to Breakthrough: Screening Method in Drug Discovery”.

Duration of course: 21 August to 26 August 2025

“Dadasaheb Balpande College of Pharmacy, Besa, Nagpur organized a Five-Day Certificate Course on ‘Bench to Breakthrough Screening Method in Drug Discovery’ in offline mode from 21st August 2025 to 26th August 2025.”

The Department of Pharmacology, Dadasaheb Balpande College of Pharmacy, Besa, Nagpur organized a Five-Day Certificate Course on ‘Bench to Breakthrough Screening Method in Drug Discovery’ from 21/08/2025 to 26/08/2025. The program aimed to bridge theoretical knowledge and practical skills in the drug discovery process, emphasizing both laboratory (bench) techniques and modern screening methodologies.

### Objectives of the Course

1. **Overview of Drug Discovery:** Understand the drug discovery pipeline with a focus on screening methods from target identification to lead optimization.
2. **Screening Techniques:** Explore various screening methods and their applications.
3. **Hands-on Training:** Gain practical experience with *in-silico*, *In-vitro*, *ex-vivo*, and *In-vivo* pharmacological screening models.
4. **Data Analysis:** Learn data analysis, interpretation of screening results, addressing false positives and negatives.
5. **Study Design and Optimization:** Learn best practices for designing robust, reproducible study, assays and optimizing conditions.
6. **Ethics and Regulations:** Discuss ethical considerations and regulatory standards in drug screening.
7. **Innovation in Drug Discovery:** Foster innovative thinking in applying screening methods to address challenges in drug discovery.
8. **Real-world Case Studies:** Review case studies of successful drug discovery projects utilizing screening methods.

## Course Schedule

| Day   | Topic                                                                                                        | Speaker & Affiliation | Key Highlights                                                                              |
|-------|--------------------------------------------------------------------------------------------------------------|-----------------------|---------------------------------------------------------------------------------------------|
| Day 1 | Key note address & Session on- Introduction to preclinical drug discovery process                            | Dr. Dadasaheb Kokare  | Evaluation of screening method, common research model in preclinical studies, Merites of AI |
|       | Electrophysiology as a Tool for Understanding Pain in IBD and Arthritis                                      | Dr. Rohit Gupta       | Cellular, ex-vivo and clinical Electrophysiology                                            |
|       | CCSEA Guidelines, 3 R Principle, Form-A to D, Flow of Ethical Approval and Insights of Animal house facility | Mr. Sachin M. More    | CCSEA Guidelines                                                                            |
| Day 2 | Molecular Techniques: RT-PCR, QPCR and ELISA                                                                 | Dr. Sunita Bundale    | Antimicrobial, antiquarum activity, Cell line study, RT-PCR, QPCR and ELISA                 |
|       | HPLC Pharmacokinetics                                                                                        | Dr.Amol Warokar       | Pharmacokinetic and cell line study, QBD                                                    |
|       | <u>TRAINING</u><br>HPLC Pharmacokinetics                                                                     | Dr.Amol Warokar       | <u>TRAINING</u><br>HPLC Pharmacokinetics                                                    |
| Day 3 | <u>LECTURE</u><br>Introduction to Epilepsy and Depression Disease Pathophysiology: Neurobiological models    | Mr. Sachin Mendhi     | Animal model of epilepsy, depression,                                                       |
|       | <u>TRAINING</u><br>Neurobiological Models                                                                    | Mr. Sachin M. Mendhi  | Handling and Dosing of animals by various route                                             |
|       | Fundamentals of Computer Aided Drug                                                                          | Dr. Sapan Shah        | Structured based drug design, Ligand based drug design,                                     |

|              | Techniques                                                                                                 |                         | Molecular docking                                                                                                                              |
|--------------|------------------------------------------------------------------------------------------------------------|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|

| <b>Day 5</b> | Diseases and models<br>related to alcoholism                                                               | Dr. Brijesh<br>Taksande | Diseases and<br>models related to<br>alcoholism                                                                                                |

A total of 67 participants, including UG students, PG students, research scholars, and faculty members from different institutes, attended the course in offline mode.

### Outcomes and Feedback

- Participants gained comprehensive exposure to both theoretical and practical aspects of drug discovery.
- The course enhanced understanding of bench-to-screening transition in identifying novel drug candidates.
- Feedback analysis revealed that over 100% participants rated the course “Excellent” in terms of relevance and delivery.
- The program encouraged collaborative networking and sparked research interest among young scholars.

## **Conclusion**

The Certificate Course on “Bench to breakthrough-Screening Method in Drug Discovery” concluded successfully, fulfilling its aim of enriching participants with cutting-edge knowledge and practical insights. The enthusiastic participation and positive feedback reflect the course’s effectiveness in skill-building and motivation for future research endeavors.

## **Acknowledgement**

The organizing committee expresses sincere gratitude to:

- All distinguished speakers for their invaluable sessions.
- Shri Manoj Balpande Director, Dr. Ujwala Mahajan principal and Dr. Nitin Dumore HOD Dept of pharmacology, Dr Rohit Gupta Course coordinator and all other faculty members for their continuous encouragement and support.
- Faculty coordinators, technical team, and volunteers for smooth execution.
- All participants for their active involvement and feedback
